Impatto effimero è un'esplorazione e una presa di consapevolezza nel mondo delle architetture temporanee, ovvero quelle architetture che definiscono gli spazi per gli eventi. Partendo da un'analisi delle ragioni dell'esistenza degli eventi dal passato si arriva al presente e anche alla previsione della loro esistenza nel prossimo futuro. Barbara Maussier sostiene con un'attenta ricerca che, per ragioni economiche, migrazioni di massa e altre cause, gli eventi saranno sempre più richiesti ma avranno anche bisogno di un'etica per affermarsi. Proseguendo con un'analisi del panorama progettuale delle architetture temporanee, suddivise per aree tematiche secondo i criteri di Umberto Fassi (ovvero intrattenimento, tempo libero, vendita e ospitalità), si consolida il concetto di impatto che deriva dalle strutture temporanee, un impatto spesso niente affatto temporaneo, definito su tre livelli: ambientale, economico e spaziale. All'interno di Impatto Effimero si definisce l'etica progettuale dell'impatto effimero stesso, in grado di portare anche a soluzioni non solo visivamente effimere, ma da un impatto veramente ridimensionato sul mondo che ospita le architetture temporanee. Si definiscono cinque criteri secondo i quali è più facile raggiungere tale obiettivo: scelta dei materiali, portabilità delle strutture, il loro montaggio e smontaggio, e infine la variazione della percezione dello spazio che sono in grado di generare. Attraverso l'analisi del panorama progettuale, condotto attraverso grafici, riassunti e approfondimenti, è possibile osservare i diversi modi in cui possono essere realizzate strutture a impatto effimero. Si propone in conclusione una visione più personale attraverso lo sviluppo di due concept, incentrati su sfere tematiche differenti. Il primo focalizzato sul tema dell'ospitalità, anche in situazione emergenziale. Il secondo orientato sul campo degli eventi programmati di ogni genere.
